

JOIN OUR COMMUNITY

HELP US BUILD A LEGACY OF HEALTHY STREAMS & SHORELINES

Our work is made possible through long-term partnerships that bridge the gap between policy and action. We invite you to join our network of municipalities, First Nations, stewardship groups, and community leaders as we co-design Nature-Based Solutions that restore both the land and our connection to it. Let's combine our expertise and steward Southern Vancouver Island's watersheds for generations to come.
