

Areas of Focus

In 2025, we continued to restore and enhance salmon habitat throughout the Greater Victoria region:

Large-Scale Stream Restoration:

- Colquitz River: Gabo Creek
- KENNES: MÁWUEĆ Project

Small-Scale Stream Restoration:

- SMUS Rain Garden
- Millstream Creek
- Tetayut Creek
- KEL,SET (Reay) Creek

Key Monitoring and Assessments

- Songhees Walkway Pocket Beach monitoring (pollinators)
- Nymph Point Park Ecocultural Restoration Study
- View Royal Park - Craigflower Estuary Restoration Efficacy
- Ten-Ten Creek Assessment
- Colquitz River smolt and adult counting fences
- 6PPD-Q monitoring
- Coastal cutthroat trout monitoring (Sooke and Victoria Harbour)
